

# QAC Data Scientist Internship

## Position Summary

The primary objective is to support the Quality Assurance and Compliance Department in the execution of the Company's quality assurance activities. The selected candidate should be pursuing a major in Computer Science or Engineering, have attentiveness to detail, good computer skills, and excellent written and oral communication skills. The goal is to help the intern develop a working knowledge of Good Clinical Practices and quality assurance in the biopharmaceutical industry.

This is a paid, 20-40 hours per week internship position with a hybrid schedule consisting of 3 days in-person in New Haven, CT and one day working remotely. This position reports directly to the Senior Director of Quality Assurance and Compliance.

## Principal Responsibilities

Key responsibilities of this role include, but are not limited to:

- Contribute to the development and implementation of a Quality Assurance and Compliance dashboard.
- Use computational tools to extract and analyze audits results and identify any meaningful patterns or trends.
- Apply skills and experience to the development of machine learning methodologies for use in quality assurance activities.
- Foster interdisciplinary collaboration by actively engaging with key stakeholders such as Regulatory Affairs, Clinical Operations, etc.
- Prepare and deliver presentations to communicate trends, etc.
- Engage in knowledge exchange with team members and leverage the internship as an opportunity for professional growth and skill development.
- Attend and participate in cross-functional team meetings.

## Qualifications

- Advanced computer software skills with MS Office (e.g., Word, Excel, Outlook, PowerPoint, and OneDrive/SharePoint).
- Excellent organizational skills and an ability to prioritize effectively to deliver results within reasonably established timelines.
- Ability to work independently and as part of a team.
- Strong analytical and data interpretation skills.
- Strong interpersonal skills including verbal and written communication are essential in this collaborative work environment.
- Comfortable with telling a story using data and numbers.
- Familiarity with analytical tools such as Tableau, PowerBI, etc.

## Education and Experience

- Currently enrolled full-time in an undergraduate or graduate program pursuing a degree in Computer Science or related field.
- Proven record of accomplishment of teamwork, adaptability, innovation, and integrity.

## To Apply

- Please submit cover letter and resume to [hr@trevitherapeutics.com](mailto:hr@trevitherapeutics.com) by February 9, 2024.

Trevi Therapeutics, Inc. is a clinical-stage biopharmaceutical company developing the investigational therapy Haduvio™ (oral nalbuphine ER) for patients with chronic cough in idiopathic pulmonary fibrosis (IPF), refractory chronic cough (RCC), and prurigo nodularis. Haduvio is a dual  $\kappa$ -opioid receptor agonist and  $\mu$ -opioid receptor antagonist that works both centrally in the brain as well as peripherally in the lungs and has the potential for a synergistic antitussive effect to treat chronic cough.
